

LIGHTING

SPACE LIGHTING

The branch of SPACE PRODUCTIONS that is run by Fred Davies jnr. Fred has been absorbed by entertainment lighting since his early teens and now has 15 years of experience working with some of the major lighting companies in UK, fitting and programming shows for leading acts, especially in the dance field.

He has for example lit Steve Hillage's System Seven several times and worked on shows for David Bowie and hundreds of lesser known acts. His expertise and enthusiasm is much sought after and he provides shows for festivals and large night clubs as well as more intimate bars and halls.

We have a sizable stock of equipment in house which includes High End moving yoke and moving mirror lights, LED's, strobes, strobe-flowers, Optikinetics projectors, YAG Lasers, spots, colour changers and control gear such as Jands Event desk, Whole Hog desk and Zero 88 etc. We also have Clima towers, Penn square trussing, Opti Trilite truss and Manfrotto stands and a varied set of rigging equipment.

As NIC electricians we provide a fully qualified service for on stage and temporary venue set-ups as well as offering full installation facilities for theatres clubs and other venues. We also provide full power and DMX cabling

with suitable buffers and distribution etc. For stage and band lighting we have a comprehensive dimmer rack with hot socapex and power distro and many bars of parcans. We provide various sundries such as mirror-balls, star cloths and various U/V lighting for the fluorescent décor.

While our speciality is in Dance and Chill-out lighting, we regularly light live acts in all genres and provide lighting and projections for arts events, corporate events and architectural lighting. We have a small and very expert team who can provide any show form the smallest to the largest including set-up take-down and constantly hands-on control with very artistic programming.

Space lighting is versatile and can transform your galaxy....at the speed of light!!
